## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5 and 10-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 contains limitation for a FIR filter structure and limitations for a method for training a power amplifier pre-distorter. Claim which is intended to embrace both apparatus and method is precluded by language of 35 U.S.C 101, which set forth statutory classes of invention in alternative only, and is also invalid under 35 U.S.C. 112, second paragraph, since claim which purports to be both method and apparatus is ambiguous and therefore does not particularly point out and distinctly claim subject matter of invention. See for example *Ex parte Lyell*, 17 USPQ 2d 1548 (Bd. PA & I. 1990).

Claims 1-5, 10-11 are rejected under 35 U.S.C. 101 based on the theory that the claim 1 is directed to neither a "process" nor a "machine," but rather embraces or overlaps two different statutory classes of invention set forth in 35 U.S.C. 101 which is drafted so as to set forth the statutory classes of invention in the alternative only.

***Allowable Subject Matter***

3. Claims 6-9 allowed.
